

The screenshot shows a Windows Form titled "Form1" with a light gray background. At the top center, there is a button labeled "Student Details". Below it is a large gray rectangle labeled "dataGridView1". To the right of the data grid, there are three buttons: "Add", "Edit", and "Delete", each with a corresponding label above it: "btn_add", "btn_edit", and "btn_delete". On the right side of the form, there is a section titled "Enter Student Details". Inside this section, there is a label "lbl_Operation" with a dropdown menu showing "Add". Below this are several input fields: "Student ID" (txt_id), "Student Roll No" (txt_rno), "Student Name" (txt_name), "Department Name" (cmb_deptname), "Address" (txt_address), and "Mobile No" (txt_mobile). A "Save" button (btn_save) is located at the bottom right of the "Enter Student Details" section.

Form1 Control Properties:

```
txt_address.Multiline = true;
dataGridView1.AllowUserToAddRows = false;
dataGridView1.EditMode = EditProgrammatically;
cmb_deptname.DropDownStyle = DropDownList;
cmb_deptname.Items:
    "Information Technology"
    "Computer Engineering",
    "Electronics and Communication Engineering",
    "Electrical and Electronics Engineering",
    "Mechanical Engineering",
    "Automobile Engineering",
    "Civil Engineering"
```
